\$1,500,000 USED FOR PROMOTING OF M'KINLEY BRIDGE

Traction Company Auditor
Explains Discrepancy Be-
tween \$6,350,000 Ap-

Against Project.

ATTEMPTS TO SHOW STOCK IS WATERED

Engineer for City Brings Out
Testimony Showing Road
Represents a Valuation of
\$70,000 a Mile, Higher
Than Average of Steam
Lines.

Testimony indicating that \$1,500,000 had
been expended for "promotion" ex-
penses in East St. Louis to carry
through the building of the McKinley
Bridge, was given before the Interstate
Commerce Commission hearing in the
Planters Hotel today. The Illinois
Traction Co. is asking permission of the
commission to increase its rates from
5 to 10 cents between St. Louis and
Granite City. City Counselor Dues and
P. Taylor Bryan, representing the Busi-
ness Men's League, are opposing the
proposal.

B. E. Bramble, auditor for the com-
pany, was being cross-examined by C.
E. Smith, engineer in the Public Utili-
ties Department, assisting Attorney
Dues, when the evidence regarding the
discrepancy of \$1,500,000 was brought out.
Smith asked the auditor if he could ex-
plain how it happens that General Sur-
intendent Bell of the traction com-
pany had testified Saturday that a care-
ful appraisal of the bridge, land and
terminal showed a valuation of \$6,350,-
000, while \$7,935,000 in securities are
charged against the property.

"There seems to be about \$1,500,000
that is not accounted for," said Smith.
"Can you tell us where it went?"
The auditor replied that he did not
know that he was competent to answer
that question. He said that his under-
standing was that the money had been
used largely for expenses in East St.
Louis. He said that the Traction com-
pany had sold as far as to finance a
ferry, that there were many expenses
of engineers besides brokerage
and other items.

"Calls It Promotion Expenses."
"Then this \$1,500,000 was practically
promotion expenses," suggested Smith.
"Oh, there were many expenses," re-
plied the witness. "I do not think I am
a competent witness upon that point."
The earnings of the bridge and ter-
minal companies and the interurban
company were the point attacked by
the city in the traction company's state-
ment purporting to show a loss of \$15,-
000 last year in its suburban service.
The auditor, after long questioning, said
that the bridge company had shown a
net earning of \$200 last year.

At the conclusion of the morning hear-
ing, City Counselor Dues said he would
bring up a more definite explanation
later, made regarding the valuation of
the bridge as reported by the company.
The Missouri and Illinois as compared
with some of the tables of figures pre-
sented to the commission.

Before the opening of the afternoon
session City Counselor Dues said to a
Post-Dispatch reporter that he intended
to attack figures presented by the
company regarding the valuation of the
bridge, land and terminal properties. He
said that the figures presented by the
company showed a total appraised val-
uation of \$2,735,857 in both Missouri and
Illinois and a valuation of land at \$1,-
500,000. This would leave the valuation
of the bridge at about \$1,500,000, which
the company is claiming a valuation of
\$4,000,000 upon the bridge alone before
the commission, as the basis on which
to raise the fare.

"There seem to be some big discrep-
ancies in the figures presented by this
company in an effort to show a loss
upon suburban traffic," said Dues, "and
I shall insist at getting to the bottom
of the matter."

Smith caused a stir this morning by a
direct inquiry as to how many shares
there is in the traction company stock.
He asked Bramble a number of ques-
tions regarding financial data made by
the company and the auditor had said
that he did not see the object of the
questions.

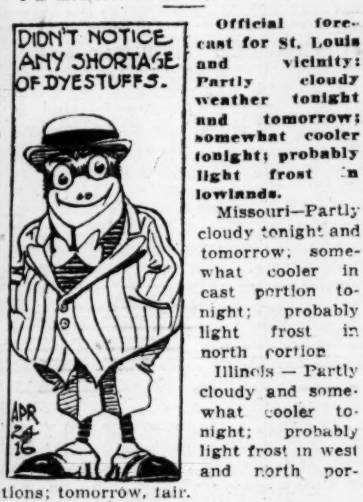

"Well, possibly I can make my mean-
ing clear by coming right down to a
plain question," said Smith. "I am try-
ing to find out just how much water
there is in the stocks and bonds of the
company."

Objection is sustained.
The auditor said that he did not think
he was the person to attempt to answer
such a question, and an objection raised
to the form of the question, made by
Henry I. Green, representing the com-
pany, was sustained.

Smith then asked the auditor if the
stocks and bonds of the company did
not represent about \$2,000,000. The au-
ditor said that was about the figure. He
was then asked how many miles of lines
the company operated and he replied
about 400 miles.

"Then, according to your own figures,"

MINISTER WHO WANTS ONLY SILVER DOLLARS GETS 1155

Gives Notice That Pennies and
Nickels Are Not Welcome in
Church Contributions.
Notice was given in advance by the
Rev. Robert Morris, pastor of St. John's
M. E. Church at Edwardsville, that the
humble penny and the unobtrusive nickel
would be unwelcome in the collection
at the Easter morning service. Only sil-
ver dollars were wanted, according to
the notice.

The congregation took heed, appar-
ently, as 1155 silver dollars were rung
resoundingly down on the small table
which stood in front of the pulpit. So
imposing was the mass of silver that
the cashier of one of the Edwardsville
banks was appealed to to open the
vault during the noon hour and give the
contribution safe keeping.

'HOME RUN' BAKER HITS 'TRAIL'

Five 'Cammies Also Among Con-
verts of Billy Sunday at Baltimore.
BALTIMORE, April 24.—Billy Sunday
closed his eight weeks' campaign in
Baltimore last night. Among the thou-
sand and trail hitters Sunday was "Home
Run" Baker and five other members of
the New York American League base-
ball team—Bone, Cook, Mullen, Waiters
and Dugan, the trainer.

Official figures show the total atten-
dance at the Baltimore revival to have
been 1,499,200.

"1776" WAR HUTS FOUND

Forty-Five Erected by Americans and
British in New York City.
NEW YORK, April 24.—Forty-five
huts erected and tenanted in 1776 by the
American army under Gen. William
Heath and by the British and Hessian
troops who drove the Americans from
Manhattan Island in the battle of Wash-
ington Heights have been unearthed at
Broadway and 203d street near the old
Dyckman mansion. The site is soon to
be turned over to the city as an histor-
ical park.

The huts were part of bricks and stood
in three rows. Many relics were found,
including English and Hessian coins and
a set of dice fashioned from bullets.

ALL Sunday Competition Smashed Again

The POST-DISPATCH yesterday, Sunday, repeated its
regular stunt of smashing all Sunday advertising com-
petition into smithereens.

The POST-DISPATCH is the only Sunday newspaper
in any metropolitan city in the United States that so
overwhelmingly outclasses all other papers in its field.

A glance at the following figures will be interesting to
advertisers:

Total Paid Advertising—	
POST-DISPATCH alone	378 Cols.

WHY?

CAFFERATA GETS ANOTHER CUT-RATE FINE IN QUAIL CASE

Cafe Proprietor Assessed \$50
Which is Stayed on Pay-
ment of \$14.85 Costs.

HIS SECOND OFFENSE Leniency of Judge Miller Saves the Defendant a Possible Ag- gregate Fine of \$790.

John Cafferata, proprietor of a cafe
at Delmar and Hamilton avenues,
pleaded guilty in Judge Miller's
Court of Criminal Correction today
of having game birds in his posses-
sion out of season. He was fined \$50,
but the fine was stayed on his pay-
ment of \$14.85 costs.

Cafferata was fined on the same
charge by Judge Miller Jan. 4 last.
At that time he was freed on pay-
ment of \$14.85 costs.

The prescribed maximum penalty is a
fine of \$50 for the first bird and \$6 for
each additional bird. At Cafferata's first
trial it was shown he had 46 quail in his
possession. Today's charge was that he
had 13 quail and one woodcock.

Birds Hidden in Ice Box.
The birds were found by A. D. Holt-
haus, a Deputy Game Warden, in the
ceiling of Cafferata's icebox at his cafe,
the night of Feb. 12. A false ceiling
with a spring trap door was used to
conceal the contraband game.

When the case was called today, Vital
W. Garesche, attorney for Cafferata,
announced that his client would plead
guilty. Judge Miller asked Cafferata if
this was his intention. He replied that
it was. The Judge then questioned
Holthaus, who said the assertion in the
information was true, after which the
fine was levied and stayed and Cafferata
paid the costs and departed.

After the case had been disposed of
Prosecuting Attorney Sidener who took
part in the proceedings, was asked by
a Post-Dispatch reporter his opinion
about the leniency shown Cafferata. "It
was in the province of the Judge to set
aside the fine," he said, "but I do not
think it was proper to do it. This was
Cafferata's second offense."

Judge Miller Explains.
Judge Miller, when asked by the
reporter about the disposition of the
case, replied: "The other time Cafferata
was merely fined the costs of court.
This time a fine was levied, but it was
stayed. I don't think he will have any
more. Holthaus will keep too close a
watch on him."

Cafferata's cafe is a favored resort of
many St. Louis politicians and office-
holders, including men in judicial, ex-
ecutive and administrative capacities in
the city government.

Probable Plans for Troops.
Withdrawal of the advanced forces in
Mexico to the Casas Grandes region, 100
miles south of the border, is regarded
by War Department officials as the pos-
sible purpose of the re-disposition of the
troops Gen. Funston has been authorized
to make. Secretary Baker made it
clear today, however, that Gen. Funston
has been given full discretion and that
he was not advised specifically of the
steps to be taken. The greatest part of
Gen. Pershing's force is now near
Casas Grandes.

Army officers pointed out that the re-
quirement suggested would cut the com-
munication lines to 100 miles from the
present border base. The American
forces then would be able to take care
of themselves without undue risk, what-
ever the developments in Mexico. They
also would be able to defend border
towns.

If Gen. Funston's purpose is to estab-
lish his advance lines around Casas
Grandes, a strip of territory 300 miles
long would be relinquished, as the pres-
ent most advanced American post is
near Parral, 400 miles south of the bor-
der. It is in this territory that Gen.
Carranza would be required to demon-
strate his ability to secure complete
control, to stamp out brigandage and,
if possible, to capture or kill Villa be-
fore a complete withdrawal from Mex-
ico would be ordered.

Advance Guard Needs Relief.
All recent reports indicate the pressing
need of relief for Gen. Pershing's ad-
vance guard, particularly the cavalry.
Men were described as physically
strained, without shoes, their uniforms
faded and their horses jaded. Many
new mounts have been forwarded and
quantities of clothing have been sent
them. The troops took the field with
only the essential field outfitting.

Movements of Carranza troops near the
border have been closely followed by
Gen. Funston and were reported to
President Wilson today by Secretary
Baker. Gen. Funston is said to have
demonstrated that unless there is thor-
ough co-operation between the Ameri-
can troops and those of the de facto
Government of Mexico it will be difficult
for the pursuit of Villa to continue suc-
cessfully.

Practically all of President Wilson's
closest advisers have urged that the
troops be kept in Mexico, at least until
there are reasonable grounds for believ-

CARRANZA WANTS EARLY REPLY TO WITHDRAWAL NOTE

Request Made Direct by First
Chief Through U. S. Special
Agent in Mexico City.

TROOPS TO STAY FOR TIME Withdrawal Likely to Depend on de Facto Showing of Ability to Control Situation.

WASHINGTON, April 24.—Gen. Car-
ranza has asked for an early answer to
his note of April 12, suggesting that
American troops be recalled from Mex-
ico. This was learned officially today in
connection with the fact that Eliseo Ar-
redondo, Mexican Ambassador-Design-
ate, sought an interview with Secre-
tary Lansing. State Department offi-
cials declined to discuss the matter.

The Mexican embassy stated that the
request had not been transmitted
through Arredondo so far as known
there. It is understood to have been
made direct by Gen. Carranza through
Special Agent Rodgers at Mexico City.

A reply also would be sent through
Rodgers.

The presence of troops in Mexico prob-
ably will have a decided effect upon
diplomatic negotiations with Gen. Car-
ranza. Some officials believe that if a
considerable part of the territory now
covered by American forces is turned
back to de facto Government, the
police, the Carranza forces will be spurred
to great activity in chasing bandits.

Border to Be Protected.
Eliseo Arredondo, Carranza's Ambassa-
dor-designate, sought an interview with
Secretary Lansing today in regard to
the Government's plan to permit Gen.
Funston to redispense his forces.

It was believed Arredondo would be
told that while there was no change in
this Government's friendly purposes,
there was no change in its determi-
nation to see that raids on American
border towns by Mexican bandits are
prevented.

Secretary Baker announced the ap-
proval of the re-disposition plan after
consulting with the President. The
joint report submitted by Major-Gen-
eral Funston and Major-General Scott.
The plan was proposed by Gen. Funston
and concurred in by Gen. Scott. The
Secretary announced that the admini-
stration's decision was as follows:

"Gen. Funston has recommended a re-
disposition of the forces in Mexico for
the purpose of recuperation pending op-
portunities for further co-operation with
the Government of Mexico. The recom-
mendation was approved and its execu-
tion left to his discretion."

Later the Secretary dictated the fol-
lowing:

"The statement I have made indicates
nothing whatever on the subject of
when the American troops will be with-
drawn from Mexico. The whole sub-
ject of withdrawal of the forces is un-
der arrangement and negotiation by the
State Department."

Democratic Committee Chairman Who Will Resign Post in June

WILLIAM F. MCCOMBS.

MCCOMBS TO QUIT CHAIRMANSHIP AFTER CONVENTION

Notifies President He Will Be
Unable to Act as Campaign
Manager.

WASHINGTON, April 24.—William F.
McCombs, chairman of the Democratic
National Committee, today notified
President Wilson that he will be unable
to continue in his present position after
the Democratic national convention in
St. Louis and will be unable to direct
the party's campaign for re-election.

Replying to Mr. McCombs' letter, the
President expressed regret. Fred B.
Lynch, National Committee man from
Minnesota, is expected to succeed Mc-
Combs and conduct the campaign.

McCombs wrote this letter to the
President:

"I have just formed a new partner-
ship for the practice of law, which will
become effective on the first day of May.
The change will necessitate my devot-
ing substantially all my time to my
profession. My political activities must
be largely curtailed. My arrangement,
however, will justify my proceeding
through to the end of the convention at
St. Louis."

"In view of the party precedent that
the nominee for President is requested
to indicate his preference for the chair-
manship of the National Committee, and
in view of the unanimity of sentiment
for your renomination, I am writing you
at the earliest moment to let you know
that I could not under any circum-
stances assume the leadership of the
coming Democratic campaign. I am
happy in the thought, however, that
there are hosts of able and true men
who can very readily take my place."

"The Democratic organization is loyal
to your policies and purposes. We all
feel assured of a triumphant result for
you and for the party nominee through-
out the country in November."

"For five years now I have been in
the active service of the party and with
a keen feeling of regret I am forced to
conclude that my activities are of neces-
sity to be more limited. If within the
limit of my time I can be of assistance,
I am assured that I am always available."

The President replied as follows:
"I have your letter of April 20 ap-
prising me of your inability to retain
the chairmanship of the Democratic
national convention for the coming year.
I fully appreciate the necessity you
feel yourself to be under to resign after
the convention shall have been held in
June. I know that you would not have
reached such a decision had not your
new business relations made it unavoid-
able. I do not feel at liberty, therefore,
to urge you to make the sacrifice that a
retention of the chairmanship in the
circumstances would involve. You have
made many and great sacrifices already
for the party and I know that I am
speaking the sentiments of all loyal
Democrats when I express the very
deep appreciation I have felt of the
great services you have rendered. I am
sure that the greatest regret will be felt
at your retirement and that a host of
friends will join me in the hope that
your new business connections will bring
you continued abundant success."

Mr. Lynch, suggested for the chair-
manship, is at present chairman of the
Executive Committee of the National
Committee and in active charge of pre-

GERARD INDICATES GERMANY WILL MAKE CERTAIN CONCESSIONS

Ambassador Receives Intimation Ber-
lin Will Go Far to Avoid
a Break.

GERMANY TRYING TO FIND WAY TO SATISFY RADICALS

Von Bethmann-Hollweg's Early Return to
Capital From Army Headquarters Indicate
Responsible Leaders of Empire Have
Agreed on Nature of Reply.

WASHINGTON, April 24.—Confidential dispatches from Am-
bassador Gerard at Berlin indicate that Germany will make certain
concessions to the United States in response to the note demanding
the immediate abandonment of present methods of submarine warfare
against merchant ships.

Whether the concessions will be sufficiently broad to meet
the American demands appears uncertain. However, officials re-
flected an air of hopefulness for an amicable settlement of the
issue.

It is understood Ambassador Gerard
had broad intimation that the German
Government will go to great lengths to
preserve friendly relations with the
United States. He is understood to
have gained his impressions from the
officials of the Berlin Foreign Office,
including Foreign Minister von Jagow.

The Berlin Government is confronted
with finding a way to satisfy the
United States without arousing the el-
ement which insists upon indiscriminate
submarine warfare.

Mr. Gerard's dispatches are of a high-
ly confidential nature and were received
during the night.

GERMAN REPLY THOUGHT TO HAVE BEEN DECIDED ON

Chancellor's Early Return to
Capital Indicates Agreement
Among Leaders.

BERLIN, via London, April 24.—
The Imperial Chancellor, Dr. von
Bethmann-Hollweg, returned to Ber-
lin yesterday afternoon, which would
seem to justify the assumption that
the empire's responsible leaders at
great headquarters have finished
consideration of the American note
and reached a decision concerning
Germany's reply. What this reply
will be is naturally unknown to us
but the highest officials.

The Chancellor's return, it is under-
stood, was not expected until Tuesday;
hence, a general decision appears to
have been reached earlier than looked
for. There is no intimation of when
the reply will be formulated, but there
seems to be much significance in the
fact that the Lokai Anzeiger, which is
consistently well informed, says that
"Germany's strength and prestige have
so increased in the last 20 months in
the eyes of the whole world, that the
German Government has, indeed, only
to follow the commandments of wis-
dom."

The obvious deduction, according to
the view here, is that there is nothing
to prevent Germany from making cer-
tain concessions if the leaders feel that
they can properly do so. Whether
they do feel that they can do thus far,
of course, another question.

There is unquestionably a consid-
erable peace party in Germany, which
includes powerful financial interests
represented by the Bourse organs and
the Frankfurter Zeitung, and including
also the Berlin Tageblatt and socialist
organs. Certain high officials, also,
would consent to a breach of war with
the United States only most reluctantly
and under pressure of what seemed
to them an unavoidable necessity.

It may be not without significance
that Maximilian Harden was permitted
to print a remarkable article in his
paper, Zukunft, defending President
Wilson's standpoint in plain words.
With the possible exception of a hand-
ful of extremists, there appears to be
robustly in Germany a desire of a breach
or war with the United States. It is
evident beyond words, however, that if
the Government should reject the de-
mands of the American note respecting
submarine warfare, it would find the
united support of Germans of all par-
ties.

Even those to whom the idea of a
rupture between Germany and the United
States is most distasteful agree in
feeling that the Government must re-
fuse to weaken its means of warfare
against Great Britain, though this
should mean a breach with the United
States.

TWO EARTHQUAKES ARE SEVERE

WASHINGTON, April 24.—Two severe
earthquakes, one of them of great in-
tensity, were recorded on the Geogra-
phical University seismograph this morn-
ing. The heaviest shock came at 3:11
a. m. Eastern time.

It was estimated by Director Tonderf

FRENCH ADVANCE IN GRENADE ATTACK NORTH OF VERDUN

Paris Office Reports Progress to the Northwest of Courtes Wood — Dead Man's Hill Heavily Bombed — German Position in the Vosges Is Captured.

RUSSIAN ADVANCE IN ARMENIA STOPPED

Constantinople Reports That Muscovites Have Been Beaten in Bitlis Neighborhood — Flood Halts British on Tigris.

PARIS, April 24.—French troops made progress last night in the northern front, northwest of Courtes Wood, the War Office announced this afternoon. They attacked with hand grenades and in the fighting took 20 prisoners, one an officer.

Several German reconnoitering parties were dispersed south of Haucourt. There was rather heavy bombardment at Dead Man's Hill. East of the Meuse the night was comparatively calm.

The statement says: "West of the River Meuse last night we dispersed several reconnoitering parties of the enemy. Southeast of Haucourt and northwest of the Courtes Wood we made progress with hand grenades in the communicating trenches of the enemy, and took about 20 prisoners. The enemy has delivered a fairly spirited bombardment in the region of Dead Man's Hill."

"In the Vosges we have captured a small German position in the vicinity of Lion Homme."

"Thirty German divisions have appeared on the Verdun front up to April 23. It is to be remarked that the German command seems to carry on the action with the least troops possible, but keeps them at the front until they are completely used. As fast as losses are sustained the German command reforms the units by means of reinforcements and brings them back to the attack when they are scarcely reconstituted."

"It is thus that certain divisions have reappeared on this front as often as three, and even four times."

TRIST RAIDED BY 7 AVIATORS

BERLIN, by wireless to Sayville, April 24.—The Austrian city of Trieste has been raided by a squadron of seven Italian aeroplanes, bombs dropped from which killed nine persons, wounded five and destroyed a monastery.

Germans Compelled to Evacuate Gains

NEW YORK, April 24.—German forces were compelled to evacuate newly won trenches on the Langemarck-Ypres road on account of high floods. The statement issued yesterday by the War Office said:

"We were compelled to evacuate our newly won trenches on the Langemarck-Ypres road on account of high floods, which made their consolidation impossible."

"On the left bank of the Meuse, southeast of Haucourt and west of Dead Man's Hill, we have taken enemy trenches. On the right bank of the river in the Voivre plain and on the heights near Combreux, fighting activity was limited to very lively artillery engagements."

Turks Stop Russian Advance in Southern Armenia

CONSTANTINOPLE, April 24.—The Russians have met with a check in their operations in Southern Armenia, according to an official statement by the Turkish War Office, having been defeated in a battle south of Bitlis and driven back after an engagement to the east of Mush, losing heavily in both clashes with the Turks. The statement says:

"Caucasian front.—Hostile forces which were in the sector of Motiki, south of Bitlis, were compelled to retreat toward Bitlis, fighting rear-guard engagements. They left hundreds of dead."

"After four hours of fighting from Kozma Mountain, to the east of Mush, the enemy was repelled in an easterly direction."

"In engagements on Kop Mountain, in the neighborhood of height No. 399, and far as Ashkale, we stopped Russian attacks and by our counter attacks drove the enemy from heights and slopes north of this mountain. The Russians lost heavily."

"Engagements are proceeding between our coast guards detachments and a

Texas Candidate and His Appeal for German-American Support

R. M. COLQUITT, MANAGER
O. B. COLQUITT
CANDIDATE FOR THE UNITED STATES SENATE
Dallas, Texas,
March 21, 1916.

Hon. A. J. Koebbe,
80 Maiden Lane,
New York City.

My dear Sir:
Referring to your letter of December 18 in which you tender your assistance, if any you could render, in my race for the United States Senate, I beg to hand you herewith copy of letter I wrote yesterday to Mr. Bernard Ridder, which explains itself.

I can hardly credit the report which reaches me from Waco that Mr. Ridder has written to the editor of the German paper at that place urging the support of Hon. R. L. Henry, inasmuch as Mr. Henry has been vicious in his attacks upon me because of my disagreement with the President on his foreign and Mexican policies.

I hope I am not asking too much in requesting that you see Mr. Ridder and enlist his friendly aid rather than permit him to become committed to Mr. Henry, who has no chance to win, but who is trying to make headway with the German-American vote on account of the eleventh hour speech which he made in the House a few weeks ago in favor of an embargo on war materials. I wish you would also see Weisman and talk with him.

I am enclosing herewith a list of papers in Texas printed in German. I hope sincerely that both you and Weisman can write the editors of these papers personal letters in my behalf. Of course, I think it would be well for such letters as you may write to be confidential for reasons which you can readily understand.

With best wishes, I am
Yours truly,
O. B. Colquitt

ROME, April 24.—The official communication from general headquarters yesterday said:
"On the Carzo, east of Sela, our infantry yesterday afternoon, supported by the artillery occupied, despite fierce resistance, strong trenches 360 meters in length. The enemy, having received reinforcements, made a violent counter-attack during the night, and on the second occasion succeeded in retaking part of the lost trenches."
"After a deadly hand-to-hand struggle, in which the enemy suffered heavy losses, we drove him out, capturing 120 prisoners, of whom six were officers. We also took two machine guns, 30 rifles, several flame-projectors and numerous cases of ammunition and bombs."

McCombs to Quit Chairmanship After Convention

liminary work for Mr. Wilson's re-election. Homer C. Cummings of Connecticut, vice chairman of the National Committee, and Joseph P. Tumulty, secretary to the President, have also been mentioned as possible successors to Mr. McCombs.

A close friendship between President Wilson and McCombs began when McCombs was a student in Princeton and President Wilson a professor. McCombs later attended Harvard and after graduation in law began practice in New York City, where he was successful.

At the beginning of the Wilson-for-President campaign, McCombs became the leader and was the organizer of the campaign. He was chosen chairman of the National committee and conducted the campaign after Wilson's nomination. McCombs is of the new type of political leader who brought efficiency and business organization into politics to replace much of the old "gum-shoe" type of political management. He was born in Hamburg, Ark., Dec. 28, 1875.

COLQUITT ADMITS THAT HE WROTE LETTER TO RIDDER

Ex-Governor of Texas Explains Why He Requested Support of German-Americans.

Special to the Post-Dispatch.
DALLAS, Tex., April 24.—Former Gov. Oscar B. Colquitt, candidate for United States Senator from Texas, in a statement, admits authorship of the letter to Bernard H. Ridder and Alphonse M. Koebbe, as published in the New York World and Post-Dispatch yesterday.

Colquitt raises no question of their accuracy; nor does he offer any explanation of why he requested both Ridder and Koebbe to treat as confidential the communications pleading for German-American votes because of such opposition to the President.

"In answer to the New York World's request for a statement on me about the letter I wrote Bernard Ridder and A. M. Koebbe of New York in March, I will say that in March friends of mine advised me that letters had been received in Texas by the editors of certain German-American papers in the name of Bernard Ridder, editor of the New York Staats-Zeitung, urging them to support Congressman R. L. Henry for United States Senator, on the ground of his commending an embargo on war materials and prohibiting their shipment from this country to Europe."

"I had met Mr. Ridder and knew Mr. Koebbe. I wrote to Mr. Ridder expressing my surprise at his urging the support of Henry. I also wrote Mr. Koebbe as a friend expressing my regret at the attitude of Mr. Ridder and called to his attention the fact that Mr. Henry, who was trying to make capital for himself on account of the fact that I didn't agree with the administration in all it had done, especially with reference to the Mexican question, and at the same time trying to carry water on the other shoulder, and trying to secure the German support through Mr. Ridder's influence on account of his speech in Congress advocating an embargo on war materials."

"The auditor replied that he believed, in view of the cost of the various power houses and other construction difficulties that the valuation of the traction company lines was not excessive."

"The auditor, representing the Business Men's League, also cross-examined the auditor. The witness said that in his schedules all operating expenses, taxes and interest had been charged against the suburban traffic. At the same time no credit is given the suburban system for freight carried between St. Louis and Granite City. He said that the freight business is profitable and brought in an income of \$42,000 in 1915."

"Bryan repeatedly asked why the suburban line was not given some credit for the freight basis. He said he could not agree that the income of the suburban line should depend upon passengers. The witness agreed to try to prepare a table showing what would be the condition of the suburban line if credited with freight receipts in part."

"The auditor testified that from the opening of the lines, eleven years ago, passenger receipts increased steadily until the latter part of 1913. He then steadily decreased until last fall. The witness testified that he prepared a table showing the passenger receipts for the first three months of this year, so that the commission might judge whether the statement made by the company for 1915 represented normal conditions."

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, carrying off the waste and poisonous matter that one's system collects.

If you have a pale face, yellow look, dull eyes, pimples, coated tongue, headaches, a listless, no-fool feeling, all out of sorts, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women, as well as men, take Dr. Edwards' Olive Tablets now and then just to keep in the pink of condition. Dr. Edwards' Olive Tablets, the successful substitute for salina—50c per box. All druggists. The Olive Tablet Company, Columbus, O.

40,000 JOIN THE EASTER PARADE IN FOREST PARK

Autos Five 'Abreast and 2350 Enter in One Hour; Finery Most Attractive Ever.

The Park Department announced today that a traffic census, made yesterday afternoon at the 10 principal entrances to Forest Park, showed that nearly 40,000 pedestrians joined in the gorgeous Easter parade on Grand Drive and in the rollicking egg-rolling on Art Hill. Besides this large number of pedestrians, there were thousands of automobiles in the park, and almost every car was filled to capacity.

It was the biggest Easter Sunday crowd that ever gathered at the park. Commissioner Cunliff said.

The ideal day was a subject of general comment. The sun was out early in the morning, and hardly once did it find a cloud to hide behind. The temperature ranged from 58 degrees at 1 o'clock to 64 at 5 o'clock.

Interest centered in two things—clothes and motor cars. There was a wide variety of each.

Five Lines of Autos on Drive.
On Grand Drive from 12:30 until after 5 o'clock, automobiles were jammed in five abreast, three rows entering the park from King's highway and two rows making their way toward the King's highway exit. Movement along Grand Drive developed into a crawl.

Most of the while the cars were moving a foot or two at a time, then a stop, and then another foot or two ahead.

Drivers disregarded the jam, and struggled to keep their places in the long procession without bumping into the car ahead, or being rammed by the car behind.

If any machines had been stored because gasoline is 19 cents a gallon, they were taken out yesterday and polished up to become a component part of the parade.

2350 Autos in Hour at One Point.
The only official count of automobiles in the park was taken by a Street Department traffic man, stationed at the King's highway-Lindell entrance, for the hour between 4 and 5 p. m., which was considered by the Park Department as the time when the maximum number of machines would enter the park. In that hour 2350 automobiles entered by Grand Drive.

The one diagonal cut-off, leading from West Pine boulevard northwesterly to an intersection with Grand Drive, was in use on Easter for the first time. When the auto jam was thickest, eastbound machines were routed over this rough and rocky new drive, for the rock had not been finished. Machines bunched ever this roadway to King's highway, at West Pine, and then turned either north or south, or continued east.

The new exit, however, proved of worth in that it greatly relieved the usual congestion and confusion at the Lindell entrance to Grand Drive. On the other hand, by intersecting the south pedestrian walk on Grand Drive, it compels a traffic policeman to stop vehicle traffic while pedestrians are crossing the new roadway, a 40-foot wide path, which is used by pedestrians so vehicles may pass. When the road is completed it will have its northern terminus at Lindell boulevard, thus intersecting also the north pedestrian walk.

Ten Counters of Pedestrians.

The pedestrian traffic count was made between 1 and 6 p. m. A man stationed at each of the 10 principal park entrances was equipped with an automatic counter. The total of these figures, Park Commissioner Cunliff said, was 53,023. The commissioner estimated that at least 500 others walked into the park at points other than where enumerators were stationed.

This count showed that 4966 persons entered the park on the north walk of Grand Drive, from Lindell and King's highways, and that 3825 entered on the south walk of Grand Drive; 889 entered

a day or so ago from the German-American Alliance of my city asking me to use my good offices to prevent a break between the United States and Germany. That is the only communication, so far as I can recall, I ever received from such organizations.

"It is hinted that I am working against the policies of President Wilson. This is not so. I campaigned in over eight states for him in the last election and intend to give him my warmest support and do whatever I can do to secure his re-election."

"It is true that I received a telegram from Mr. Koebbe, who was trying to make capital for himself on account of the fact that I didn't agree with the administration in all it had done, especially with reference to the Mexican question, and at the same time trying to carry water on the other shoulder, and trying to secure the German support through Mr. Ridder's influence on account of his speech in Congress advocating an embargo on war materials."

"I had met Mr. Ridder and knew Mr. Koebbe. I wrote to Mr. Ridder expressing my surprise at his urging the support of Henry. I also wrote Mr. Koebbe as a friend expressing my regret at the attitude of Mr. Ridder and called to his attention the fact that Mr. Henry, who was trying to make capital for himself on account of the fact that I didn't agree with the administration in all it had done, especially with reference to the Mexican question, and at the same time trying to carry water on the other shoulder, and trying to secure the German support through Mr. Ridder's influence on account of his speech in Congress advocating an embargo on war materials."

1917 NAVY BILL CARRIES INCREASE OF \$66,000,000

Appropriation of \$217,652,174 Agreed Upon by Subcommittee Includes Entire Building Program for Next Year of Department.

WASHINGTON, April 24.—The naval appropriation bill for the fiscal year 1917, framed by a House subcommittee and submitted to the committee today, carries \$217,652,174 against \$149,556,555 appropriated for the current fiscal year. This is inclusive of public works, and is on the basis of the Navy Department's proposed building program for 1917.

The Navy Department's building program for 1917, which is for two battleships, two battle cruisers, three scout cruisers, 15 destroyers, 27 submarines, two gunboats, one hospital ship and one fuel oil ship, is embodied without change for the committee to take up next Thursday.

This proposed building program would cost \$85,372,127, against \$45,051,901 for this year, and includes \$27,447,000 for hulls and outfitting and machinery of proposed new ships and \$7,675,000 for hulls and outfitting of five fleet submarines and 25 coast submarines proposed and \$21,681,000 for the armor and armament for vessels authorized on the 1917 building program. There is also an item of \$28,368,127 for construction and machinery of vessels heretofore authorized.

For aviation in the navy, including maintenance of aircraft stations and experimental work in development of aviation for naval purposes, the bill carries \$2,000,000 and in addition \$55,000 for Naval Advisory Committee for Aeronautics. The naval militia is given \$387,737 instead of \$250,000 as at present.

In personnel the bill provides for 13,200 additional men. For naval auxiliaries \$250,000 is allowed, an increase of \$100,000. New items for \$5,000,000 for reserve ammunition are included. A \$3,500,000 dry dock at Norfolk and another like it at Philadelphia for battleship construction is proposed.

Two hundred and fifty thousand dollars for the purchase of 232 acres of land on San Diego Bay for marine advance and aviation base was contingent on the city giving 500 acres adjoining tide lands of the bay for a naval base. The naval medical service would be increased to 3½ per cent of the authorized strength of the Marine Corps.

TWO MORE AERO SQUADRONS TO BE EQUIPPED IN WEST

Each Will Have 20 Aviators, 120 Enlisted Men, 24 Aeroplanes, 120 Motor Cars and 22 Motor Vehicles.

SAN DIEGO, Cal., April 24.—The War Department at Washington has decided that as fast as satisfactory aeroplanes of high-powered service can be obtained, two aero squadrons will be equipped in addition to the Third and Fourth Squadrons now being organized at the North Island Signal Corps Training School here. The Third and Fourth will be sent to the Panama Canal and to Hawaii, respectively if it is understood.

Each of the squadrons will have 20 junior military aviators and 120 enlisted men, 12 aeroplanes or aeroplanes for active duty, 12 reserve aeroplanes, the equivalent of 12 aeroplanes disassembled as spare parts and 22 motor vehicles.

Col. William Glassford, commandant at North Island, has recommended to the War Department that the rating of "aviator" be created for a limited number of enlisted men, with pay of \$150 a month while on flying duty.

6000 Persons, Largest Crowd of Year, Visited Art Museum Yesterday

The City Art Museum in Forest Park was visited yesterday by the largest crowd of the year. The museum officials said that not less than 6000 people passed through the building during the day.

The chief attractions at the museum were three special exhibitions: Pastel drawings by Cornelia Maury, a St. Louis woman; a group of portraits by Harrington Mann, and a joint exhibition of paintings and statuary by Mr. and Mrs. Robert Vonnoh.

The largest crowd at the museum on any previous day this year was 6000, one Sunday in February when a special exhibit was on.

BOY ON WAY TO SCHOOL KILLED BY AUTO UNCLE DROVE

He Leaps From Moving Machine and Falls Under Rear Wheel.

Stephen Foundos, 17 years old, was run over this afternoon at Seventh and Victor streets by an automobile driven by his uncle, Harry Anastas of 280 De Kalb street, and died at a few minutes later in the office of a physician to which he was carried.

The boy, who came here a year ago from Albania and was living with his uncle, was returning to the Humboldt School, Ninth and Victor streets. He had ridden with his uncle in the automobile to Seventh and Victor streets, he alighted while the machine was in motion, but fell, the rear wheel passing over his chest.

Anastas was taken to the Wyoming street station and held while the police investigated.

The boy's parents are still in Albania.

PRICE OF SUGAR GOES UP TO \$7.50 FOR 100 LBS. WHOLESALE

Housewives Get Between 12 and 14 Pounds for \$1 Instead of the 20 Pounds of a Few Years Ago.

The steady rise in the price of sugar has brought that commodity to the point where today the wholesaler is asking the retailer \$7.50 a 100 pounds, or 7½ cents a pound. At today's quotations it costs the grocery jobber \$7.42½ a 100 pounds to buy sugar delivered in St. Louis.

On this basis the consumer today can buy only 12 to 14 pounds of sugar for \$1, whereas only a few years ago he could buy 20 pounds for \$1. Some small stores which gave quotations to a Post-Dispatch reporter today gave 12 pounds for \$1 and some gave 12½ or 13. The larger stores were selling it a little cheaper.

A downtown grocery made a price of 13½ pounds for \$1, and a company that runs a chain of stores was selling 14 pounds for \$1.

The indications are that the price will go still higher, according to H. C. Schnapp, president of the Krenning-Schnapp Wholesale Grocery Co., who attributed the high price to a general shortage of sugar in this country. This shortage, he said, is due partly to a small crop in Cuba and to the war which has stopped the exportation of beet sugar from Germany and France.

NEEDS OF BUSINESS CHIEF ISSUE IN U. S., SAYS L. M. SHAW

Former Secretary of Treasury
Thinks Solution Is Greater
Participation in Politics.

HERE FOR AN ADDRESS

Suggests That 100,000 Business
Men Attend National Conven-
tion of Each Party.

Leslie M. Shaw of New York, Secretary of the Treasury in President Roosevelt's Cabinet for four years, was in St. Louis today to speak at the Clive League luncheon on the general topic of trade expansion.

At the Planters Hotel in the morning Shaw said that in his opinion preparedness for business certainties was the most important issue before the country. "I would urge," he said, "that business men take a more active interest in politics. The two great political parties have been vying with each other for a decade to see which could hit business the hardest. If business men will take part in politics and let their needs rather than their wishes be known, all this would change. The people are friendly to business."

Suggests Business Motto.

"If the business people will enter a campaign under this motto, 'That the people may know,' there will be no more trouble along that line. As it is, the people do not know."

"The national convention of each party should be attended by 100,000 business men of that party. They should parade the streets under appropriate banners, but not in the interest of any candidate. Let the delegates who have been selected as a great nominating committee discharge the responsibilities for which they were selected."

"The presence of these men, whoever is nominated, and whichever party is successful, would effectually obliterate business antagonism. The gold standard parade of 100,000 in New York City in 1886 turned the tide. They did not march for a candidate, but for a principle. Principles are bigger than men. These are not times for personal ambition."

Asked at this point regarding the candidacy of Roosevelt, Shaw said that he could not discuss it without violating the rule he laid down for business men. He said he took no part in the Roosevelt-Taft contest four years ago because both were his friends, and he said he "could see no principle involved."

He urged the merchant to permanently withdrawn from the American trade and said that this country would be at a great disadvantage at the close of the European war if it did not have many ships to meet its need of every possible advantage.

Asked for his views on preparedness of military and naval forces, he replied that everybody favored that in a general way.

WORKMEN STRIKE AGAIN ON BRANCH OF ALASKA RAILROAD

Walk Out Because of Delay of Federal Mediators in Reaching Decision on Their Demands

SEWARD, Alaska, April 24.—Members of Seward Industrial Union No. 1 were in session here last night to consider the action of the Federal Labor Union at Anchorage in calling a general strike yesterday of all workmen engaged in the construction of the Anchorage-Manitoka branch of the United States Railroad.

Men at Anchorage struck last February for an increase of pay from 35 cents to 45 cents an hour. The Department of Labor appointed three mediators to fix a wage scale which would be in effect from March 7, the date the men resumed work pending the decision of the arbitrators.

The present strike is due to the mediators' delay in handing down a decision.

PARCELS CANNOT GET TO HOLLAND

600 Bags of Mail in New York to Be Returned to Senders.

NEW YORK, April 24.—Six hundred bags of parcel post matter, comprising probably more than 50,000 packages, mailed for distribution in Holland, are to be returned to the senders in America because the steamship companies will not carry this mail, owing to the British seizures of parcel post. The British authorities contend that the parcels might reach and benefit the central powers.

This mail has accumulated here since November, 1915. The Postmaster-General has ordered that the postage be refunded. A "temporary suspension" of the shipment of parcel post to the Netherlands is to continue to the end of the war, or until Great Britain consents to let the mail pass.

Partial View of Immense "Bull" Durham Factories at Durham, N. C.

The Purity of "Bull" Durham Is Proven Absolutely by Government Statistics!

Herewith we print a facsimile of a letter from Hon. W. H. Osborn, Commissioner of Internal Revenue, written in the routine of his official duty in answer to a letter from the manufacturer.

The Government officials find in the "Bull" Durham factory nothing but the bright, golden leaves of Carolina and Virginia tobaccos—the tobaccos that have made American cigarettes the most popular smokes in the world.

In Durham—and indeed, throughout practically all of North Carolina and the adjoining counties of Virginia—nearly every man is interested in tobacco, the great staple crop of the community. In the towns where the tobacco warehouses are located; on the farms, in the banks, in the stores—everywhere—these men who grow the tobacco, who take it to market, who buy it and sell it, and are made prosperous by the business of handling the money received from the crop—everywhere, these men know that the sweetest, mellowest, choicest leaf is bought for

GENUINE "BULL" DURHAM SMOKING TOBACCO

And they know that nothing else ever enters the "Bull" Durham factory.

These men who live with tobacco, know that for three generations the same farms in the same counties have been producing their best for "Bull" Durham. They know that the quality of "Bull" Durham has made the city of Durham famous—and the honor of "Bull" Durham is a source of pride, not only to the manufacturers, but to the entire community.

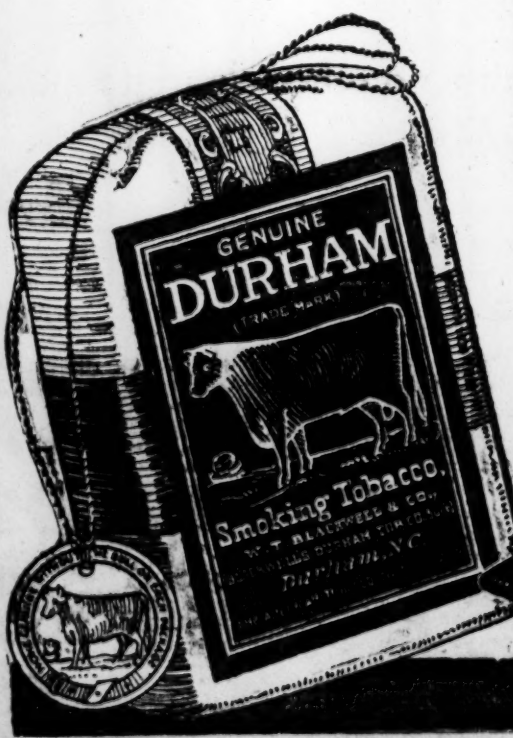

Test "Bull" Durham Purity For Yourself! You can easily prove to

your entire satisfaction the absolute purity of this famous old tobacco.

Simply take a bag of "Bull" Durham and empty the tobacco on a piece of white paper. Then separate the grains with your finger and examine them closely. You will find only tiny flakes of pure tobacco—nothing else looks like the golden Carolina-Virginia leaf used in "Bull" Durham. Your eye would instantly "spot" anything of a different nature. Make the test today—learn to "roll your own" with "Bull" Durham—and you'll find the greatest smoke-enjoyment of your life.

FREE An illustrated Booklet, showing correct way to "Roll Your Own" Cigarettes, and a package of cigarette paper, will both be mailed, free, to any address in U. S. on request. Address "Bull" Durham, Durham, N. C.

TWO WOMEN IN 31 ARRESTS MADE FOR LID LIFTING

Police Break Up Sunday Stag Party, Take 19 Men and Seize Beverage.

Thirty-one persons, two of whom were arrested for alleged liquor law violations yesterday.

John Kinney, a glassblower, of 5539 Theodosia avenue and 18 men who were enjoying a stag party at his home were arrested. A half barrel of beer and several whisky glasses were taken as evidence.

Mrs. Luella McNulty, whose husband, Hugh A. McNulty, conducts a saloon at 625 South Broadway, was arrested after a patrolman in plain clothes reported that he had purchased a glass of beer from her in a backroom.

Joseph Zaleski, proprietor of a saloon at 1901 South Eleventh street, was arrested when policemen saw him carrying a keg of beer from the saloon to rooms upstairs where several men were congregated.

Charles Hayes, a negro coal dealer, was arrested in a shed behind 423 Suburban avenue. The police reported that he was selling liquor to white men. Hayes flourished a meat cleaver and resisted arrest. He was overcome and taken to the inebriate ward. A quantity of beer and whisky found in the shed was seized.

Henry Niemann, saloon keeper at Ware and St. Ferdinand avenues, was arrested when policemen found seven men in his saloon. Niemann was behind the bar with a glass of beer in his hand, the police said.

In a raid on the Auburn Social Club, 1500 Cass avenue, the police arrested John Shea, 23 years old, of 1434 Cass avenue, and Raymond Dair, 25, of 1432 North Sixteenth street, on a charge of selling liquor without a license.

Jacob Weller was arrested in his saloon at 2401 South Second street when the police found six men there. Three beer glasses and two empty bottles taken from the bar were held as evidence.

Several saloon keepers found in their places yesterday were arrested, but later released, when they satisfied the police that they were merely cleaning their fixtures, a privilege granted by the Excise Commissioner.

PARIS HEARS VON DER GOLTZ WAS KILLED BY TURKS

Swiss and Italian Rumors Are That He Was Assassinated After the Fall of Trebizond.

PARIS, April 24.—Reports from Swiss and Italian sources say Field Marshal von der Goltz was assassinated immediately after the news of the fall of Trebizond reached Constantinople. He was about to board a train for Berlin when he was killed, says the rumors.

On April 19 Berlin papers announced that the Field Marshal was coming to the capital, but said nothing about his being ill.

Another story says that upon seeing the Russians were about to defeat the Turks decisively, Field Marshal von der Goltz, fearing the collapse of his 29 years of work with the Turkish army, placed himself with all his staff at the head of the Ottoman force and charged to certain death.

PICKETS IN STRIKE OF 13,000 CLUBBED BY DEPUTY SHERIFFS

Had Clashed Hands Across a Bridge to Block Way to Westinghouse Factory.

PITTSBURGH, April 24.—Deputy Sheriff guarding the plant of the Westinghouse Electric and Manufacturing Co., where 12,000 men are on strike, used their clubs today to force a way through crowds of pickets for workmen trying to enter. The principal fighting was at the Talbot Street Bridge, where the pickets linked hands across the street along which the workmen passed.

It is said that between 200 and 300 men succeeded in getting inside the works.

Seventy-six metal manufacturing companies whose plants are located in Pittsburgh and vicinity announced they would not reduce the working hours in their respective shops. The companies employ a total of almost 100,000 men.

MOUNTED DETAIL RECEIVES PLUG OF TOBACCO FROM AIR

Commander of Patrol in Mexican Hills Thought Flyer Was Dropping Military Order.

FIELD HEADQUARTERS IN MEXICO, April 21, by aeroplane to Columbus, N. M., April 14.—Delivery of one plug of tobacco from an aeroplane for a Second Lieutenant in a patrol out in the hills a few days ago was mistaken for the command for the arrival of official orders. The aeroplane did not stop at the post which the patrol was holding, but as it flew overhead, along one of the regular aero routes, the plug of tobacco was tossed out with a yard-long strip of white cloth attached to make its descent conspicuous. The officer in charge of the command ordered out a detail of mounted men, which, in regular formation, surrounded the white object. Then an orderly was detailed to go in and pick up the "message."

A Villa follower, wounded in a fight with American troops and brought here for medical attention, died, his burial taking place yesterday. Negro troopers dug the grave. When the body was about to be lowered, it was suggested that there should be some sort of ceremony. Thereupon a negro stepped forward, bared his head and recited the following:

"Earth to earth,
Dust to dust,
If Carranza won't shoot you,
The U. S. must."

YOUTH HELD WITH WOMAN SAY TAKING AUTO WAS A LARK

Admit Forcing Owner From Machine at Pistol Point, But Deny Robbing Him.

Paul McCaskill, 17, of 3951 McPherson avenue, and William L. Ryan, 19, of 4101 West Pine boulevard, who were arrested yesterday on the charge of taking an automobile from Theodore Hoffman of 2636 Emerson avenue near Washington avenue, Friday night, and robbing him of \$17, admit taking the automobile but deny the robbery. They say the taking of the machine was a lark.

The arrest of the youths followed that of Mrs. Ruth Clinker, 20 years old, of the Panama Hotel. She was found in the stalled Hoffman machine on the Clayton road two miles from Clayton early Saturday morning by two farmers, who took her to a farm house. Later Sheriff Bode was notified and arrested her there. She said the youths went after gasoline when the machine stalled on a hill and did not return. She had known them a week and accepted their invitation to take a ride. McCaskill admits that he compelled Hoffman, at the point of a revolver, to get out of the machine. Ryan says he drove the car into the county. Both say they thought of going to Denver, but changed their minds when the gasoline was exhausted, principally because they had no money with which to buy more. They will be turned over to the county authorities.

FORMER U. S. DIPLOMAT'S SON WHO LOST LEG IN WAR, IS HOME

Theodore Marburg Jr., Was Wounded When in British Aviation Corps on Western Front.

NEW YORK, April 24.—Theodore Marburg of Baltimore, former United States Minister at Brussels, arrived here yesterday on the steamship St. Louis from Liverpool, accompanied by his son, Theodore Jr., who lost his left leg while fighting with the British aviation corps on the western front.

Marburg Sr. said that while abroad he met King Albert and Queen Elizabeth of Belgium. "They are living in an unpretentious villa at La Panne," said Marburg. "The Queen, a graduate in medicine, is devoting most of her time to the needs of poor refugees."

"From what I saw, I am of the opinion that the war has not yet reached the turning point."

PREMIER OFFERS TO SUBSCRIBE \$1,000,000 TO GREEK LOAN

Earlier Report Says Skouloudis Had Made Outright Gift—King's Brother on Way to Capitulate.

ATHENS, April 24.—Premier Skouloudis has offered to subscribe \$1,000,000 to an internal loan if one is floated. This news appears to be the correct version of a former report that the Premier, who is a man of wealth, had given \$1,000,000 to the State outright, that amount being roughly the sum due the families of the mobilized troops and unpaid on account of an empty treasury.

ROME, April 24.—Prince Christophoros of Greece, brother of King Constantine, is on his way to Paris, London and Petrograd. It is believed he is charged with an important diplomatic mission precluding a more definite attitude of Greece in favor of the allies.

GERMANY GETS RUMANIA CORN

Forwarding of 140,000 Carloads to Berlin Next Week.

BERLIN, April 24, by wireless to Sayville.—About 60,000 carloads of corn have been sent from Rumania to Germany and Austria during the last three months. The Overseas News Agency says. It was reported from Bucharest that the forwarding of 140,000 carloads recently sold by Rumania will begin next week. The news agency states that the British were unable to obtain even half of the 80,000 carloads of corn they desired to purchase.

LAMM AND MORRIS WON'T BE BOUND BY LEADERS HERE

Declare, in Reply to Swanger Statement on Prohibition, They Will Make No Secret Promises.

BOTH IN THE CITY

Republican Committee May Be Asked to Indorse Swanger for Governor Tonight.

A statement by John E. Swanger of Sedalia, candidate for the Republican nomination for Governor, to the Republican City Committee Saturday night that he was opposed to State-wide prohibition, but in favor of local option, brought statements today from his two leading opponents, former Judge Henry Lamm of Sedalia and Charles D. Morris of St. Joseph.

Swanger's announcement of his position was at a conference of committee-men called to hear Swanger as a result of a threatened desertion of several of the committeemen of the Kiel-Schmoll-Graves faction from Swanger because of a fear that Swanger was "too dry."

Lamm and Morris told Post-Dispatch reporters this morning that they did not want support for which they had to make promises to be fulfilled officially after election.

Morris was in St. Louis over Sunday. He said he saw no politicians except Jephtha D. Howe, who is active in the support of Lamm. Morris and Howe went to the ball game together Sunday.

SIX EXPEDITIONS TO EXPLORE EARLY INDIAN DWELLINGS

Parties of Scientists Will Devote 5 Years to Work Financed by Collins P. Huntington's Son.

NEW YORK, April 24.—Six expeditions financed by Archer W. Huntington, son of the late Collins P. Huntington, will explore the ruins and Pueblos or community dwellings of aboriginal Indians in the Southwest this summer, under the direction of the American Museum of Natural History. The Uni-

versity of Colorado will co-operate with the museum in some of this work. The expeditions will cover a large territory in New Mexico and Arizona, especially in the vicinity of the Grand Canyon. Three of the expeditions will be commanded by, respectively, Nels C. Nelson, Leslie Spier and Earl Morris. Morris is from the University of Colorado. Spier will explore the Zuni Pueblos and Morris will investigate the ruins in the San Juan Valley of New Mexico. One of these covers a large tract and is called the "Aztec of New Mexico." Five years will be required to develop the work in that section.

156 CONVICTED AS SPIES

Bosnian Aid to Have Given Aid to Serbia.

MILAN, April 24.—A great spy trial which has been in progress several months at Banja Luka, in Bosnia, has ended, the Corriere Della Serna learns, on the sentence of death being passed on 156 persons. Many of the prisoners, who occupied professional positions, were accused of high treason and espionage in favor of Serbia.

5000 Swords Ordered in Japan, TOKIO, April 24.—Japanese swordsmiths have received orders to supply 5000 swords to the entente allies. They are for the use of officers.

Garland's GREAT SPECIAL TUESDAY Disposal of Suits

From four or five small groups of Suits that were priced heretofore up to \$25.00—we have made one big unit group for Tuesday's sale.

71 Suits that were formerly priced \$25.00

87 Suits that were formerly priced \$20.00

92 Suits that were formerly priced \$18.90

98 Suits that were formerly priced \$16.95

348 Suits in probably 50 smart styles and in all sizes

Choice for
\$11.90

Such opportunities as this can only be presented by a store which always carries heavy stocks, and then not every day in the week. This sale, for example, is unusual even for Garland's, but we have too many Suits, and they must be cleaned out quickly.

All the popular and staple fabrics (silks excepted) that you saw in \$18, \$20 and \$25.00 suits before Easter are embraced in this lot at \$11.90. All the favorite colors, too, are well represented. The styles include tailored and fancy trimmed. Large sailor collars of silk in contrasting colors. Flare skirts that are short, in keeping with the correct modes. All these features are here and the price is \$11.90.

WHITMAN INSISTS ON HUGHES

Says Justice's Personal Desire Does Not Weigh.

ALBANY, N. Y., April 24.—Gov. Whitman last night issued a statement in which he reiterated his belief that Justice Charles E. Hughes was the choice of the Republicans for President. He said:

"I have not conferred with Justice Hughes on the subject, and I mean no disrespect to him when I say that I am not very deeply concerned about his individual desires in the matter. If the people of this nation believe that the welfare of the Republic requires his presence in the White House, they have the right to insist that he shall go there."

Earl of Limerick Reaches New York. NEW YORK, April 24.—The Earl of Limerick arrived here today on his first trip to America to visit his daughter, who is the wife of James Cox Brady of this city.

PERCY GRAINGER RECITAL BREEZY AND ORIGINAL

Australian Pianist at Woman's Club Plays Bach With Vim and Ginger.

By RICHARD L. STOKES.
Like a draft of ozone blowing through the conventions of music, scattering the dust and cobwebs and filling every crevice with freshness, was the spirit which informed the playing of Percy Grainger, the notable Australian composer-pianist, at his first St. Louis concert, given this morning at the Woman's Club, 400 Lindell boulevard.

An almost startling example of his breezy originality was displayed in his performance of Bach's Prelude and Fugue in D Major, transcribed for the piano by Busoni. Bach, of course, is considered the synonym of the "high brow" in music, yet it is safe to say that no "professor" presiding at a dance hall could have put more vim and ginger into "Alexander's Ragtime Band" than was stirringly present in Grainger's keenly rhythmic and nearly syncopated version of this fugue for the organ.

According to the dryadists, this was sacrilege; but it is not so certain that Bach himself would have been displeased with the vitality breathed into his work by the young Australian. Surely the old Saxon cantor did not intend his compositions to become a sort of musical algebra. At any rate, the audience, composed of about 400 persons, mostly society women, are delighted as its little shrieks and gasps of pleasure proved.

Not the song of the lyric spirit or the declamation of the orator, but the rhythmic dance of the dancer is the characteristic of Grainger's talent as a pianist. A considerable portion of his program was made up of dance music, including two of his own compositions, a "Mock-Morris Dance" and "Shepherd's Hey," an English Morris dance tune, set by Grainger. These lend some of the toe-tapping quality of our own classic of the fiddle, "Turkey in the Straw."

Yet—bounteous as his anecdote of blond locks promised—he had also the qualities of the musical poet and dreamer, which were revealed in his emotional interpretation of Schumann's "Romance in F Sharp Minor," and Brahms' "Ballade in G Minor," "Intermezzo in E Flat," and "Rhapsody in E Flat," as well as in the pianist's own poem of feeling; and Debussy's futuristic "Toccata in C-sharp Minor" was a marvel of dash and delicacy.

Grainger was called upon for three encores, two of which were his own compositions, the sailor's song and the little piece "Gay but Wistful," from Grainger's suite "In a Nutsheet." The other was Brahms' "Waltz in A Flat," Opus 39, No. 15.

POSTMASTER AT FENTON, MO. FINED \$801 FOR EMBEZZLEMENT

Judge Gives W. J. Wallack Minimum for Offense on His Plea of Guilty.

William J. Wallack, former postmaster of Fenton, Mo., was fined \$801 by Judge Dyer this morning in the United States District Court, after pleading guilty to embezzling this amount from the funds of his office. His friends had raised \$500 to apply on the amount of the fine and Wallack was released on parole to pay the remainder. The judgment is the minimum penalty for the offense.

Wallack, when arrested three weeks ago, after postoffice inspectors had found the shortage on his books, admitted embezzling the money. In a plea for leniency he explained in a letter to the U. S. District Attorney's office that his appointment at Fenton carried no salary and but slight fees. He said he lost \$5000 when fire destroyed his store in 1913.

The U. S. District Attorney's office recommended leniency.

GOVERNMENT MAN SENTENCED

Garage Employee Gets 3 Years for Stealing Auto Accessories.

Lawrence Denoyer, an employee in the Government garage, 328 North Twelfth street, was sentenced last Saturday by Judge Dyer in the United States District Court to three years in the Leavenworth penitentiary after pleading guilty to a charge of embezzling Government property.

Denoyer was accused of stealing spare plugs, skid chains and automobile accessories valued at less than \$50.

FORD STILL LEADS IN NEBRASKA

Twelve of Delegates Said to Favor Hughes.

OMAHA, Neb., April 24.—Latest returns from last Tuesday's primary today gave Henry Ford a lead over R. Cummins of 27 votes in the race for endorsement for President. This vote represents 20 counties complete and 75 scattering precincts.

It has been developed that the delegates from the Second Congressional District (Omaha) will go to the convention in support of Charles E. Hughes. At least 10 other delegates elected are said to personally favor Hughes.

Careful St. Joseph Mothers Treat Children's Colds Externally

They Say Internal Dosing Harms Delicate Little Stomachs—"Outside" Applications Better.

Careful mothers everywhere realize that internal medicines are injurious to the delicate stomachs of the little folks. Still cough and cold troubles must have some form of treatment. The answer to this problem is the Southern "external" treatment Vap-O-Rub. This was introduced in St. Jo. Mo., for the first time last winter, and a number of ladies were presented with complimentary jars by their druggists on condition that they give Vap-O-Rub a thorough test. Here are the reports from several of these ladies:

Mrs. M. A. Myers, 2943 Sylvan Ave., says: "When our three-year-old boy had a severe cold, about a month ago, I tried a jar of Vap-O-Rub. I rubbed it on his chest and let him inhale it, and he was relieved almost immediately, and got better a few days. I think your remedy is the best thing for colds we have ever used."

Vick's Vap-O-Rub comes in salve form, and when applied to the heat of the body the ingredients are vaporized by the body warmth. These vapors, inhaled all night long, carry the medication with each breath through the air passages, to the lungs. Vick's will be found better than internal medicine for all forms of cold troubles—from head colds, catarrh and asthmatic troubles, down to deep chest colds, bronchitis, sore throat or incipient pneumonia. Three sizes—25c, 50c and \$1.00.

Mrs. John Paynter, 2432 S. 17th St., writes: "My druggist sent me a

SOCIETY

THIS evening, there will be entertainment for society at the Easton Hotel and their wedding parties, at the theaters, with supper at the Jefferson afterward.

For Miss Grace Jamerson, who will wed Forrest C. McNary of Kansas City Thursday, her brother, Kirby Jamerson, will be the best man, and Miss Florence Stifel, one of the bridesmaids, will be the hostess for the supper afterward.

Miss Corinne Nugent, whose wedding to De Witte Marzani of Detroit will occur Wednesday, will be the guest of honor of a dinner given this evening by her aunt, Mrs. Byron Nugent, but the party will be given at the hostess's residence at 29 Westmoreland place.

Mr. and Mrs. Philip Bond, who will entertain with a theater party and supper in honor of Mrs. Fouke's sister, Miss Emily Riddle, and her bridal party, and Mr. and Mrs. Rolla Wells will give a theater and supper party in honor of their daughter, Miss Jane Wells, who will marry Thomas K. Smith Thursday.

Mrs. James M. Sloan of 36 Washington terrace was the hostess for her bridge club this afternoon. The members include Misses Tom Wagner, William O'Neen, Frederick Starr, George W. Ferry, W. Franklin Armstrong, Samuel E. Jeffries, Charles A. Cox, George S. Maddox, Clarence Nichols, J. W. Frisette, J. T. Johnston and Henry Hillard.

Mr. and Mrs. Allen R. Sheffer of 348 Maple avenue are announcing the marriage of their daughter, Miss Fern Sheffer, to David Gregg Goerner, which took place quietly Saturday afternoon at the residence of the Rev. E. W. True, all of the West Presbyterian Church. The bride's sister, Miss Vivian Sheffer, and the bridegroom's brother, Wallace Goerner, were the witnesses.

The affair was as simple as possible, as the bridegroom is just recovering from diphtheria, which caused the wedding plans to be changed.

Mr. Goerner and his bride dispensed with a wedding trip and went directly to their bungalow in Webster.

The engagement of Miss Laurie Kaiser, daughter of the late Mr. and Mrs. P. P. Kaiser of 434 West Pine boulevard, to John Cox Allee of Fort Madison, Mo., was announced yesterday.

Miss Kaiser is a crack rider and it was while playing in Chicago last summer, where she won the woman's championship, that she met Mr. Allee.

Miss Kaiser is a sister of Millard P. and Francis Kaiser and of Mrs. Martin C. Kelso of Chicago.

Mr. Allee is a graduate of Princeton of the class of 1907, and the son of William H. Allee of Fort Madison.

Mr. and Mrs. Alexander Tebelman and their son, Henry Tebelman, who have been spending the winter at the Hamilton Hotel, have taken possession of their new residence at 311 Waterman avenue.

Mrs. H. I. Miller of the Hamilton Hotel returned home Thursday after spending three months with friends in the South.

Mrs. and Mrs. J. C. Touchstone of the Hamilton Hotel are visiting relatives in Springfield, Mo., for a fortnight.

Mrs. Bertha Goldstein of 3501 Wells avenue announces the engagement of her daughter, Miss Minnie Goldstein Devorin, to Benjamin Stone of St. Louis.

Mr. and Mrs. Charles S. Brown, after a trip to the Florida resorts, have returned to their country home on the Denny road, near Kirkwood.

Easterfest and Shakspearian Festivities Monday, Wednesday and all week at Clarendon Gardens.

POLICE CLERK MISSING, WIFE OF ANOTHER ALSO DISAPPEARS
Families Were Neighbors and Neither Has Been Seen by Friends Since Friday.

The coincident disappearance of Herman Reese, a clerk at Central Police Station, and the wife of another police clerk at Central Station and a neighbor of Reese, is being investigated by the Police Department. Reese and his wife lived at 263A North Union boulevard and Furman and his wife lived in the adjoining upstairs flat at 253A.

Reese failed to report for duty at 11 p. m. Friday. It was found that he had not been to his home since leaving work at 7 a. m. When Furman went home at 5 o'clock in the evening he found his wife out. She has not returned and he has heard nothing from her.

Do you care what the editors of the

WOMAN'S HOME COMPANION

think of you? The Companion editors say:

"The woman makes the home.

"It is our hope to help each individual woman make her own special home a happier, more comfortable, and more prosperous place for her family to live in.

"We take pride in helping our friends—the readers of the Companion—to solve their dress problems, cook their food in the most appetizing and economical way, bring up their children, and keep in touch with the best thought and literature of the day.

"We appreciate the finer things of life, the spiritual rather than the material.

"And so we try to stimulate and inspire our friends, without feeling that we are in any position to preach."

That is what the Companion editors think of you.

What do you think of them?

There are many spectacular features of interest and merit in the Companion, but you will get the most out of it if you like the personality of the magazine—the kind of magazine it is—and the spirit back of it. It is quite different.

PROBLEM IN PRICE OF SHOE LEATHER

Prices of leather are so high that makers of shoes and other leather goods have a problem on their hands. Actual workers in leather, however, have the same materials to work with, and their skill must be as great as ever.

"I am glad to recommend Tanlac to any man or woman who is suffering from kidney trouble and all the misery such an ailment causes," declared J. Kaufman of 4042 Morgan street. Mr. Kaufman is a leather worker and, like other high-class artisans, he must meet the efficiency demands of the day, the first of which is health.

"For years," continued Mr. Kaufman, "I have suffered from kidney trouble which caused pains in my back and limbs and brought on a

touch of rheumatism from time to time. As nearly all sufferers from kidney trouble do, I passed many sleepless nights and felt that my health was being undermined.

"But Tanlac has already relieved my troubles. The pains have disappeared, a sure sign that Tanlac has reached the seat of the trouble. I am sleeping soundly and, consequently, awake refreshed. This is something new and mighty fine for me. Tanlac has produced wonderful results in my case."

Tanlac now is being specially introduced in St. Louis at the 7th and St. Charles street store of the Johnson-Enderle-Pauler Drug Co., and Wolff-Wilson drug store, 6th and Washington. The four Winkelmans stores are the special South Side distributors of Tanlac.—ADV.

NO SCRAPS FROM BATTLEFIELDS ARE WASTED BY BRITISH

Shoes and Wearing Apparel Repaired to Do Long Service and Then Sold.

Correspondence of the Associated Press.

ON THE BRITISH FRONT, France, April 19.—The question of what becomes of the vast number of broken implements of warfare and the discarded clothing and shoes that are commonly supposed to strew the battlefields where great armies are operating, may be answered, so far as the British expeditionary force is concerned, by a visit to one of the bases of the British army. All these things, from the big gun which has been shattered by a shell, to the smallest part of Tommy Atkins' personal equipment which has been broken or lost, are gathered up and returned to one of the bases, where they are repaired, if possible.

If they cannot be mended such parts as are intact are used in renewing other implements or articles of the same kind, and in event that they are hopelessly broken or torn they are sold as junk.

Busy at Repairing.
A correspondent of the Associated Press was permitted to visit one of these big repair depots. Departments of every description were busy at restoration. In one building was a pile of upwards of half a million pairs of worn boots—a veritable mountain of muddy footgear. These were being disinfected, cleaned, resoled and repaired in other ways at the rate of 7000 pairs a week by a large force of experts. As fast as they were finished they were placed in stock ready to go back to the trenches when there should be a call for more boots.

In other shops parts of broken harness from the equipment of the army horses were being repaired, saddles were being made over, rifles were being made whole, big guns were in the process of renewal, uniforms and equipments were being overhauled—in fact, every conceivable sort of thing which finds use in the army was being renovated.

Nothing Is Wasted.
All unserviceable bits of metal were being stored to sell to foundries and even the tattered pieces of uniforms were being made ready for the call of dealers who buy cloth of this description for various manufacturing purposes.

Much of the work in this repair depot was being done by French girls, although a large force of men was required for the heavy work and such duties as called for skilled labor.

An officer explained that "no waste" was the motto under which the British forces were working and declared that the result was the saving of vast sums of money for the government.

FIRST AMERICAN SQUADRILLA OF AIR MEN AT FRENCH FRONT

Flying Corps Consists of More Than 30 Pilots and Have Finest Type of Aeroplanes.

PARIS, April 24.—The first separate American volunteer squadrilla of the French flying corps has been constituted and is assigned to a point on the front, where it is fighting as a separate unit under a French officer. All the aviators are equipped with the fastest type of air machines adapted to pursuit, and which have proved effective recently against the swiftest German fliers.

The squadrilla numbers more than 30 pilots, all of whom have shown their skill and daring to a point where the general staff decided they should be brought together, forming a Franco-American squadrilla, for service at the front. Several of the American fliers have been cited in orders already published, to which now is added the citation of Elliott Cowdin, who recently brought down another German machine before Verdun.

The French press pays tribute to the daring, skill and devotion of the Americans.

1000 DROWNED WHEN CHINESE CRUISER AND TRANSPORT CRASH

Steamer of 1700 Tons Sinks on Way to Foo Chow After Collision With War Vessel.

SHANGHAI, April 24.—More than 1000 soldiers and men of the crew of the steamer Hsin-Yu were lost when the steamer sank after a collision with the cruiser Hai-Yung, Saturday evening, south of the Chusan Islands. The steamer, acting as a transport was taking troops to Foo Chow. The collision occurred during a thick fog. The Hsin-Yu was a vessel of 1629 tons.

EASTER GREETINGS FOR POPE

Thousands Hope That His Peace Efforts Will Succeed.

ROME, April 24.—Before sunset last night the Pope had received more than 2000 telegrams bringing Easter greetings besides innumerable letters, messages and addresses from all parts of the world, far surpassing the number received last year for the first Easter of his pontificate.

The characteristic note of this world tribute is the expression of wishes for the success of his efforts for peace. Many of the messages said the name of Benedict would go down to posterity inheriting the blessing promised to peacemakers.

POLICE BOARD IS ASKED BY PASTORS NOT TO RESIGN

Evangelical Alliance Attributes
Lid Violations to Laxness of
Major and Rumsey.

A resolution asking the Police Commissioners of St. Louis not to resign, and blaming Gov. Major and Excise Commissioner Rumsey for recent liquor law violations, was adopted by the Evangelical Alliance in monthly meeting at the Central Public Library today. Twenty-eight ministers were present and the vote was unanimous.

The resolution was as follows: "A controversy has arisen between the police and the Excise Commissioner as to responsibility for lawless conduct. While instances of flagrant neglect on the part of individual policemen have come before us, nothing has tended to show connivance on the part of the Police Commissioners.

"On the other hand, it is perfectly evident that the Governor and the Excise Commissioner have overlooked laxness and used lawbreakers, for political purposes.

Refer to a Test Case. "When a test case of flagrant and admitted lawlessness was submitted to each department the Police Commissioner acted swiftly and strictly, while Col. Rumsey cited the place, closed it for one week and then reopened it. In one month the press has reported nearly 300 arrests by the police for liquor law violations, but has not reported one revocation of license by Col. Rumsey.

"In this controversy the city is threatened with a serious condition. It seems clear that a movement is on foot to force the Police Board to resign in order that the police may be placed back of Rumsey's candidacy for Mayor. This would place the police in politics and cause a return to the old disgraceful days when voters were intimidated and the ballot corrupted.

"Therefore, we felt it our duty to urge the Police Commissioners to refrain from submitting their resignations until an open demand is made on them by the Governor, or until he removes them on his own initiative. We pledge the Commissioners our support in enforcing the law."

Before the adoption of the resolution the report of the Legislative Committee was read by the chairman, the Rev. John L. Brandt. He told of conferences held by the committee with Rumsey and with President McPherson of the Police Board and of assurances given by both.

The report said that bills had been prepared for introduction into the Board of Aldermen "pertaining to cabaret performances where liquor is sold," and in regard to wine-rooms. He urged that clergymen and members of their churches appear before the aldermen in support of the cabaret and wine-rooms bills.

MORE SONGSTERS FROM SOUTH ARE GUESTS OF CITY IN PARKS

Some of Those Observed by Bird Club
Will Summer Further North, but
Others Will Remain Here.

The small army of boys and girls of the St. Louis Bird Club who visited the parks Saturday were rewarded with ideal opportunities for bird study. The foliage was still so light as not to interfere with good views of the songsters which were out in force, and as the weather of the last week did not retard migration much, there were several arrivals from the South.

Conspicuous among these were the flocks of chimney swifts, circling over the lakes and waving warblers on the first winged insects of spring. Other newcomers were the yellow warbler, black and white warbler, red-breasted withatch, orchard oriole and Baltimore oriole. White-throated sparrows, belated in their journey north, and mourning doves, here for the summer, were added to the list of those already observed. Coots, now to be seen swimming and diving in the lakes, might remain to nest in the parks if given a low shore with some cattails and spotted deck.

Further evidence of nesting was found. Nests of the bluejay, robin and chickadee were reported; chickadees had found thickets; red-headed woodpeckers in pairs whizzed about stumps in search of homesites. In all 40 birds were seen, including nine new ones. The club will conduct its last walk in the parks next Saturday and for the month of May will extend its excursions for bird study to Creve Coeur Lake.

PROFIT SHARING IS ATTACKED BY LABOR LEADERS

Gompers and Others Say
Schemes of Big Industrial Con-
cerns Really Handicap Men.

FORD PLAN INVESTIGATED

Civic Federation Finds It Has
Done Good, but Is Paternal-
istic and Unlikely to Last.

By Leased Wire From the New York
Bureau of the Post-Dispatch.
NEW YORK, April 24.—The big chiefs
of organized labor, including Samuel
Gompers, head of the American Federa-
tion; Warren S. Stone, of the Interna-
tional Brotherhood of Locomotive Engi-
neers; James P. Holland, president of
the New York State Federation of La-
bor; and William Green of the United
Mine Workers of America, have become
unfavorably disposed toward the various
profit-sharing schemes that great indus-
trial concerns throughout the country
are putting into practice.

This fact is disclosed in a report made
public by the National Civic Federa-
tion, giving the results of its study of
the subject in the United States and
Europe.

"It has come under my observation,"
Gompers is quoted in the report as say-
ing, "that some employers who have in-
augurated systems of so-called profit-
sharing have pared down the wages of
their employees so that the combined
sharing of profits and their wages do
not equal the wages of employees of oth-
er companies in the same line of indus-
try."

All 4 Plans Opposed by Stone.
Grand Chief Stone says: "I am op-
posed to profit-sharing of any kind un-
der any name. I believe in paying the
worker fair wages and allowing him to
look after his own interests. All forms
of profit-sharing have a tendency to
speed up the worker and make him re-
spond to work under conditions which,
otherwise he would not tolerate for a
single day."

President Holland says: "A cash dis-
tribution makes some men work hard,
to the detriment of other men. The bon-
us system makes men dissatisfied and
they are unable to air their grievances
for the reason that they would lose their
bonuses. The selling of stock to men at
a low price is the means of stopping
them from organizing."

Henry Ford's \$1-a-day experiment is
not a profit-sharing plan, the National
Civic Federation investigators say, but
simply a "high-wage system" made pos-
sible by extraordinary conditions.

"Even at the highest rate paid, \$7 a
day," the report says, "the employees of
the Ford company do not get as much as
skilled mechanics in the same in-
dustry in Detroit employed where dif-
ferent processes are used in making au-
tomobiles of a higher grade."

Ford's Men Mostly Unskilled.
"This company," depending almost en-
tirely upon machinery, requires almost
no skilled workmanship.

"The plan is essentially paternalistic,
and while it is now accepted by the
employees, a very large percentage of
whom came from countries where pa-
ternalism prevails, it is a question
whether such close inspection of the
private lives, habits and personal ac-
counts will be tolerated by the foreign-
ers when they shall have become Amer-
icanized."

Forty private detectives, the report
says, keep constant watch on Ford em-
ployees and they scrutinize Government
records, family bills, passports and tax
bills, in getting at facts about the men.
The report says, however, that the Ford
plan has helped employees and the com-
munity.

Not 25 per cent of the United States
Steel Corporation's 228,000 employees have
taken advantage of the stock owner-
ship plan, and not over 15 per cent still
hold their stock and are receiving a
bonus thereon, says the report.

Stock Distribution Abandoned.
The Baldwin Locomotive Works aban-
doned its stock distribution plan in Feb-
ruary, 1915, when it found that employees
had secretly sold their stock in the
speculative market at a profit.

Of Swift & Co.'s 35,000 employees only
2500 have bought stock in the concern.
The Du Pont de Nemours Powder Co.
is one of many munition plants that
have given 30 per cent cash bonuses
to employees.

Over 80,000 employees of the American
Telephone and Telegraph Co. are paying
for more than 100,000 shares of stock.
The General Electric Co. has arranged
to distribute \$2,000,000 in cash
bonuses to its 80,000 employees in 1916.

PACIFIC GUNNERS ACCU:ATE

Destroyer Stewart Makes Perfect
Score: 16 Out of 17 Hits by Maryland.
SAN DIEGO, Cal., April 24.—Among
vessels of the Pacific fleet at recent
tests, the Maryland scored 16 hits out
of 17 shots in elementary practice and
the Cleveland 15 out of 16 shots. In
battle practice the Cleveland made 22
hits in 40 shots.

In torpedo practice Friday off San
Pedro the destroyer Stewart scored 10
hits in as many shots while steaming at
speed of 20 knots. The range was be-
tween 500 and 400 yards. Other vessels
of the fleet also made good averages.
The Stewart made a perfect score at
both day and night torpedo practice.

Plans Coast to Coast Flight.
SAN DIEGO, Cal., April 24.—Oscar A.
Brindley, instructor at the United States
army aviation school here, announces
he will attempt to fly from either San
Diego or Los Angeles to New York in
six days, to demonstrate an electric
automatic stabilizer.

Texas Windstorm Does Damage.
LONGVIEW, Tex., April 24.—Twenty
houses were blown from their founda-
tions, many barns were demolished and
much livestock killed by a violent wind
storm which swept this city and the
country between here and Big Sandy
late yesterday. So far no persons have
been reported killed.

RHODES-BURFORD

THE WONDER OF THE AGE!
Buck's 3-Fuel Combination Range
BLUE OR WHITE ENAMEL
THE MOST BEAUTIFUL, DURABLE AND SANITARY
RANGE IN EXISTENCE

The Most Successful
Combination Range
Manufactured

¶ You will never cook with any other
range, once you have used and be-
come acquainted with a Buck's Com-
bination Range.
¶ This range saves worry and work
saves time and expense, saves FUEL.
¶ You without the least trouble or in-
convenience burn the fuel you find
handiest, at the time—gas, coal, or
wood. Or, if you wish, you can burn
two fuels at once—gas with either coal
or wood.
¶ The only Combination Range on the
market equally successful with any
fuel—gas, coal or wood.

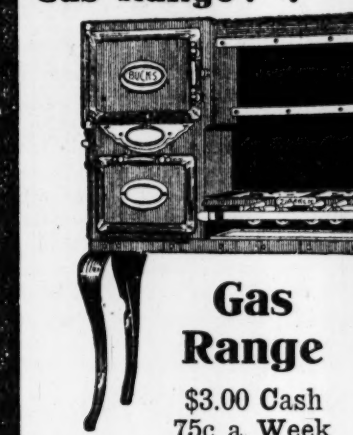

The Secret

¶ This range owes its popularity and
success to its simplicity—its ease
of operation. For a range with such
a wide scope of usefulness this sim-
plicity is nothing short of remarkable.
And it means a saving that every
housewife appreciates.
¶ For instance, suppose you have been
using gas and want to change to
coal. What do you do? With the
Buck's Combination Range just open
the oven door, slide out the baffling
plate—and the change is made. All it
took was about two seconds and
shifted back again just as quickly. No
complicated mechanism to bother with.
Nothing to get out of order—all the
faults of the ordinary combination
range completely eliminated. Do you
wonder that women who know about
this simpler Combination Range all
favor it?

Easy to Change
From Coal to Gas

¶ Body of the range is made of cast
iron covered with Sanitary White
Enamel. High Closet, Broiler Pan,
Drip Pan, Oven Door and Sanitary White
Enamel. The most remarkable and
only thoroughly sanitary combination
range on the market. Durable, easily
cleaned, highly ornamental. Trimmed
with Buck's silver nickel, high closet
etc., as satisfactorily as any gas range.
Change from one fuel to another can
be made in a few seconds. Fitted with
three Buck's special one-piece star
burners, one broiler burner and one
star burner. Length over all
44 inches.

Here's Why You'll
Buy A Buck's
Combination Range

1. It has original Sanitary White Enamel oven lining. White Enamel Splashes, Drip Pan and Broiling Pan.
2. Four-hole cooking top—White Enamel Drip Pan under all four burners. Patented lighter can be furnished for entire cooking top—lights one burner or as many as desired at same time.
3. Buck's Perfected Burners that will boil a pound (or pint) of water with 4-100 of a foot of gas in 1 minute 40 seconds. Save from 10% to 40% gas.
4. Saves from 10% to 25% when wood or coal is used.
5. Shifts from gas to coal or wood or vice versa in two seconds.
6. Flues for coal for wood; unobstructed and independent of all gas burners. Same size as used on several Buck's Ranges for coal only.
7. Flues for gas unobstructed and independent of all grates, etc.
8. Always ready for use. No cold places or spaces in oven—nor dirty, greasy grates and burners to wash in and out—no trouble-making automatic devices.
9. Most easily operated—entirely from the front!
10. Grates, burners and burner supporters can be lifted out without removing a bolt or a screw.
11. Buck's full-size, full-length, two-line standard gas oven burner.
12. Safe—explosion-proof. Oven door has to be opened before oven burner can be lighted.
13. Big, roomy, 18-inch baking oven, capable of being heated with two fuels at once.
14. Perfect oven circulation—every cubic inch heated to same temperature—any fuel. Biscuits perfectly baked with gas in 10 minutes.
15. Compact—takes up only 27 1/4 inches floor space. Ideal for small kitchen.
16. Leak-proof gas cocks—porcelain handles.
17. All parts accessible—most easy to keep clean.
18. Built throughout of highest grade materials. We fully guarantee against mechanical flaws or defects of workmanship.
19. Liberally trimmed with Buck's Silver Nickel which retains its brilliancy throughout life of the range.
20. Durable, beautiful, economical, efficient range that is tremendously desirable from all angles.

Literature's Finest Story of England's Greatest Sea Fight

By J. W. Muller

Land's End, The Lizard, The Needles, Portsmouth, Calais, Dunkirk, the North Sea and the Orkneys—all the places that figure today in the submarine and other news of the two huge watching sea-powers, figure thrillingly in the last and greatest scene of Charles Kingsley's famous sea-story, "Westward Ho!"

WHEN Don Guzman Maria Magdalena Sotomayer de Soto won and carried away from Devon Rose Salterne, whom all the young blades called The Rose of Torridge, Amayas Leigh, of Biddeford, swore a great oath. He swore that he would kill the Spanish grande, though he hunted him around the earth's globe and though a thousand times a thousand salt tides should pass before he found him.

He sailed his tall ship *Rosa* to the Spanish Main and failed to meet his foe. But he left the ship's house there with those of his brother, and he returned home knowing that *Rosa* was dead in Venezuela. It made his hatred all the more black, seeing that there was little left to him except that hatred.

He prayed often thereafter—an awful prayer. It was that Don Guzman might not die before they met. A wild joy was his when one day Sir Richard Grenville stormed into his house and brought news that a great armada of Spain was sailing toward the coast of England to break the island kingdom forever.

He sailed out of Biddeford into the Bristol Channel and around Land's End up the English Channel to Plymouth, where were gathered ships of Francis Drake, John Hawkins, Frobenius, Raleigh and a dozen more of Queen Elizabeth's Spain-hating gentleman-adventurers. None hated Spain more than did the crew of Amayas Leigh's ship, the *Vengeance*.

They waited till the armada was sighted sweeping up channel past the Lizard in formation half-moonwise and full seven miles from wing to wing.

Then they put out. They banged and ran away and banged and fled again, their little ships hanging to the Spanish's high sea-castles as snapping whippets might hang to a herd of African lions. They shuffled the huge fleet past Plymouth and down the coast to Portsmouth. From the Needles poured English ships after ship to join the fight that shook the white chalk cliffs. Past Brighton Cliffs, Beachy Head, Hastings and Dungeness it roared with clouds of sulphur smoke and vast painted sails shining high above.

The *Vengeance* was in the press of it. Amayas Leigh was at the helm and by his side fierce old Salvation Yeo, who had been with John Oxenham at Panama and had only one wish in all the world—to pay back the Spaniards for hanging that beloved captain.

The Great Armada Flees Into the North Sea. THROUGH smoke and hangings and battles, now of the single ships, now of confused squadrons, these two steered the *Vengeance* ever again toward one Spanish ship, a great galleon whose banners flaunted the bright coat-of-arms of De Soto. And Don Guzman was no remiss. Shining in silver mail his brave figure stood on the poop, beckoning to Amayas Leigh with a hungry sword.

The sea-fight drove down on Calais, and toward yellow Dunkirk sands and of a sudden northward and out into the North Sea. Then the English fleet knew that the great armada was running. Past Yarmouth and the mouth of the Humber and Flamborough Head they drove the fleeing ships. The Scottish coast came in sight. My Lord Thomas Howard lunged to them and drove them beyond the tempting shelter of the Firth of Forth.

Once past there, it was over. The avalanche that was to overwhelm England had melted helplessly and pitifully away.

One by one the English ships dropped off, to pillage prizes or carry them into port. At last only one ship remained in chase. It was the *Vengeance*, and the ship she chased was the galleon Santa Catherine—shot-torn, gas-battered, her gold tarnished and her bright silken banners ragged, but unbeaten still and commanded still by the undefeated Don Guzman.

They raced north, around Scotland and the Orkneys. Then the *Vengeance* forced him south again, down between the Hebrides and Scotland and past the fife of Byke whose wild inhabitants howled with glee. Into the Irish Sea they raced and southward past Holyhead and into Cardigan Bay. Four times they fought, and still Don Guzman evaded a grapple. So on the sixteenth day of the chase the two came around St. David's Head and into the opening of Amayas Leigh's own Bristol Channel.

A Terrific Squall Sweeps Over the English Channel. THEY turned eastward—toward home, the harbor whence the Spaniard had taken the *Rosa* of Torridge. Amayas Leigh exulted that his revenge should be so finely staged. But one on board said: "Eastward? He never brought us luck!" and at that moment a tearing squall broke from a long black cloud. The two ships were wrapped in a gray whirlwind as they staggered helplessly to lee. "Can you see the chase?" yelled Amayas, and then: "Murder!"

There was the Santa Catherine, flying with splitten canvas. "Range alongside, though it blow live imps and witches!" bellowed Amayas. Salvation Yeo leaped to the helm.

"Port! For the love of God, port your helm!"

Amayas and Yeo leaned to the helm like yoked steers. The *Vengeance* careened, but she swung around. Within 200 yards was the Spaniard, and in front of him loomed a huge, dark mass that was not rain or cloud.

"Lundy!" screamed Yeo. "The Isle of Lundy! Hard a-port and may the Lord have mercy on us! Look at the Spaniard!"

Between them and the wall of granite the galleon loomed dimly, struggled to obey her helm, fell away and rushed to her doom. "Lost! Lost!" cried Amayas Leigh madly. He hurled his sword far into the sea. "Shame! To lose my right, my right! When it was in my very grasp! Unmerciful!"

A crack rent the sky. There was a world of bright flame against which stood out every mast and sail, the sinking galleon and Salvation Yeo, bright and fearful, the tiller in his hand. Then Salvation Yeo dropped dead on deck and utter darkness fell—a black, black night that never lifted again for Amayas Leigh of Devon. The great flash of lightning had struck him blind.

It is not too much to say that this story, written by a churchman, is one of the very finest sea stories ever produced in any language or in any age. Whoever has followed the course of the Spanish Conquistadores and their English enemies over the Spanish Main, bears witness not only to the beauty of Charles Kingsley's descriptions of the Caribbean Tropics, but to their wonderful accuracy. Yet Kingsley never saw the American Tropics until 1870, and he wrote "Westward Ho!" in 1855. He got almost all his material from Hakluyt and English histories; but he had the imagination of genius, whose mark is that in its farthest flight it still grips undeviatingly at the truth.

Potato Beetle's Appetite. IF a baby had the appetite of a young potato beetle it would eat from 50 to 100 pounds of food every 24 hours. If a horse ate as much as a caterpillar, in proportion to its size, it would consume a ton of hay every 24 hours. A caterpillar eats twice its weight of leaves every day; but a potato beetle devours every day at least five times its weight of foliage, every bit of which represents just so much money to the farmer.

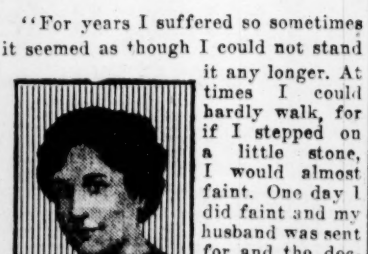

The most destructive of all insects, however, is the grasshopper, which, when in good health, consumes in a day 10 times its weight of vegetation. No wonder that whole districts are devastated by its multitudinous swarms.

The great Lake Nicaragua and the Rio Grande, which connects it with the Caribbean, are inhabited by one of the few fresh water species of shark known in the world.

The bamboo sometimes grows two feet in 24 hours. There are 30 varieties of this tree; the smallest is only six inches in height, and the largest 150 feet.

FOUR WEEKS IN HOSPITAL

Mrs. Brown Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound.

"For years I suffered so sometimes it seemed as though I could not stand it any longer. At times I could hardly walk, for if I stepped on a little stone, I would almost faint. One day I did faint and my husband was sent for and the doctor came. I was taken to the hospital and stayed four weeks, but when I came home I would faint just the same and had the same pains."

A friend who is a nurse said for me to try Lydia E. Pinkham's Vegetable Compound. I began taking it that very day for I was suffering a great deal. It has already done me more good than the hospital. To anyone who is suffering as I was my advice is to stop in the first drug store and get a bottle of Lydia E. Pinkham's Vegetable Compound before you go home."

When a Man's Married

A Story of Wedded Life.
By Dale Drummond.

Chapter XXVII.

THE matter of dismissing Kate and going without a servant, as they had when first married, was one upon which Robert's mind was made up. "Will you tell Kate she can go back next month is up or shall I?" he asked as he rose from the table and looked at his watch. "If you would rather I should discharge her I have just five minutes to do it in."

"Whatever are you talking about?" Jane queried. "I have no idea of discharging Kate. She does as well as anyone we could afford."

"Well, I have! We cannot afford a maid at present, so please ring the bell."

As Jane made no move to do as he had asked, Robert stepped to the kitchen door and said: "Come in here a moment, Kate!" Kate came into the dining room and looked in surprise from one to the other.

"When is your month up, Kate?" Robert asked.

"Saturday, sir!" It was Wednesday. "We shall not need you any longer. Here are your wages, and if you like you may go at once, as it was impossible to give you longer notice."

"Thank you, sir!" Kate said as Robert handed her the money and then hurried from the room, calling as she went: "I'll be home as early as possible to-night, Jane!"

LOOKING FOR WORK. Everywhere men complain about work; even boys and girls in school or business find work tedious and irksome, but it is really their own lack of physical strength that makes it hard.

Rich blood, strong lungs and healthful digestion make work pleasurable in business, in school or even housework, and if you who are easily tired—who are not sick, but weak and nervous—would just take Scott's Emulsion for one month and let its pure, concentrated food create richer blood to pulsate through every artery and vein—let it build a structure of healthy tissue and give you vigorous strength—you would find work easy and would look for more. Always insist on Scott's.

Women acquainted with Fownes quality in ALL kinds of gloves, are demanding Fownes silk gloves,—with reason.

Smartest, most satisfactory,—but they cost no more.

as he reached the gate, and Jane could lie and rest or read after her work was done. Then, too, the cooking would be more simple in warm weather when fresh vegetables, fruits and salads formed the main part of their meals.

"Hullo!" he called as he opened the door with his latchkey. "Where are you, Jane? What's the house all dark for?"

"I'm upstairs," Jane's voice sounded hard and cold. "Well, come on down. I'm hungry! Then I thought we might run over to the Lovejoy's a few minutes later."

"I'm not coming down."

"Why not? You're not sick, are you?" And Robert ran up the stairs.

Jane lay in bed, a reading lamp beside her, and a new magazine on the table. To his anxious queries she returned evasive answers.

"I was tired, so I thought I'd go to bed," was about all she would say. "But dinner?" Robert gasped. "Aren't we going to have anything to eat?"

"I'm sure I don't know! You discharged Kate, not me. I had nothing to do with it," Jane replied sweetly.

"But—by Jane, Jane! You're not doing this just because I let Kate go, are you?" unable to believe she would resort to such means simply to punish him.

Household Hints.

SALT will remove the stains from all dry with a soft cloth. A red-hot iron will soften old putty so that it can be easily removed. Never use water from a stone reservoir for cooking purposes. Never allow fresh meat to remain in paper; it absorbs the juice. Never keep vinegar or yeast in stone crocks or jugs; their acid attacks the glazing, which is said to be poisonous. Steep one ounce of celery seed in ½ pint of vinegar. A few drops of this will give a fine flavor to soups and in sauces for fowl. Salt and fine ashes mixed will clean steel forks and knives.

Neighborhood Theaters.

A NEW feature in New York theatricals is the neighborhood circuit, a series of small, first-class houses here and there in thickly populated sections far from the white light district, to which the best attractions go on leaving the "Broadway" houses in which they have been offered. Even companies which have been out of the city for some time and traveled considerable distances, return for runs of a few nights or a week in these theaters.

MOVIE OPERATOR USES HIP BOOTS AT NEGRO BAPTISM
Garments Save Picture From Being Ducked—Crowd Objects to Making of Film.
His boots saved W. H. Trefa, a movie picture operator, from being ducked at a negro baptism at the foot of Franklin avenue, yesterday afternoon.
Trefa had supplied himself with rubber hip boots and carried his machine into the water. The ministers doing the baptizing waded over to him in the rubber suits and told him not to film the proceedings, but while they were immersing 15 converts they had their hands so full that they paid no further attention to him.
The crowd on shore pressed down to the water's edge and shouted at Trefa and their driftwood at him. Some threatened to "get him" when he came ashore, but none dared to spoil their Easter clothes by going in after him. Trefa had an automobile waiting on the levee, but the prospect of reaching it was not good, and he sent for police protection. Before the police arrived white men in an automobile took him away from the scene.

The Jarr Family

Written for the Post-Dispatch
By Roy L. McCardell.

Mrs. Jarr Has an Argument With the Office Boy When She Calls Up Mr. Jarr Over the Phone.

"I WANT to speak to Mr. Jarr," said Mrs. Jarr over the telephone. "What name, please?" asked the office boy who attended to the telephone in Mr. Jarr's office. "Jarr, J-A double R-Jarr," replied Mrs. Jarr. "You heard me?" "But YOUR name, please?" said the boy. "It's none of your business, young man; you just go tell Mr. Jarr that I want to speak to him and at once!" retorted Mrs. Jarr with extreme emphasis. "You'll have to give me your name, ma'am!" said the boy firmly. "Has Mr. Jarr so many callers over the telephone that he has to know them by name?" asked Mrs. Jarr acridly. "I don't know, ma'am; I only know it is the office rule that persons who call must give their names."

"Look here: young man, how dare you raise your voice to me? Do you know who I am?" asked Mrs. Jarr angrily. "Ain't that what I've been trying to find out?" replied the boy peevishly. "If you don't give me your name you'll be cut off!"

"You just dare to!" said Mrs. Jarr. "There's something suspicious about this whole thing. You go tell my husband I want to speak to him, and if you are impertinent I'll have you discharged!"

So the boy told Mr. Jarr his wife was on the wire and wanted to speak to him. "Hello, dear, is that you?" asked Mr. Jarr.

"Oh, you recognize my voice, do you?" asked Mrs. Jarr. "You didn't at first. It's very strange, Mr. Jarr, that you have so many lady callers on the telephone that you have to post your boy to insult your wife!"

"Now, my dear!" began Mr. Jarr. "It's very strange that I have called you up at the office for several years and this was the first time I have ever been so insulted!" said Mrs. Jarr.

"That was the former boy who knew your voice. This is a fresh boy."

"Yes, I should say he was fresh! The freshest I had ever speak to me!" interrupted Mrs. Jarr. "There must be nice women call up that office that he should DARE to speak to me so!" retorted Mrs. Jarr heatedly.

"I meant he was now, not fresh the way you mean," said Mr. Jarr.

"Well, if you don't discharge him at once you never need speak to me again!" replied Mrs. Jarr.

"I can't very well do that," said Mr. Jarr. "I'm sure he meant no harm."

"Meant no harm?" replied Mrs. Jarr. "Couldn't I see him grinning in my face?"

"Not over the telephone very well," said Mr. Jarr soothingly.

"Well, if I could have seen him he would have been grinning," replied Mrs. Jarr. "But that's neither here nor there, and not what I called you up to speak to you about."

"Well, what is it you want to tell me, my dear?" said Mr. Jarr.

"Let me see, what was it?" meditated Mrs. Jarr. "Bless me, if I haven't clean forgotten what it was! But it's no wonder, the way I have been insulted by a dirty-faced office boy this day."

"Frank is a very clean boy and not at all a rude boy," replied Mr. Jarr.

"Never you mind; always praising up other people, especially people who are rude to your wife! But I forgot, those are the kinds of people you think the most of and."

"What was it you wanted to ask me?" said Mr. Jarr, diplomatically ignoring all these charges.

"Let me see," replied Mrs. Jarr in a reflective one. "Oh, will you be sure to be home tonight, early?"

"Certainly," said Mr. Jarr. "That's all, Goodbye! Don't forget!" said Mrs. Jarr. And the incident was closed.

Marvelous Ability

HOW did you recognize the man you were after when he was so cleverly disguised? we asked the great detective.

"Very simple," he replied. "I recognized his voice."

"But you said he was sitting all alone in a restaurant when you made the arrest. Was he talking to himself? If not, how could you recognize his voice?"

"We thought we had him there, but the great detective smiles a superior sort of smile and said:

"Quite elementary, my dear Watson. I heard him eating soup."

Optimistic.

BILL BLEECHER is confident that our baseball team is going to win the pennant this year.

"How does he figure that out?" "Easy enough. He believes all the dope our manager is handing out and thinks all the other managers in the league are lying."

Wanted an American Name.

A SOMEWHAT unpatriotic little son of Italy, 12 years old, came to his teacher in the public school and asked if he could have his name changed.

"Why do you want to change your name?" the teacher asked.

"I want to be an American. I live in America now."

"What American name would you like to have?"

"I have it here," he said, handing the teacher a dirty scrap of paper on which was written "Patrick Dennis McCarthy."—Chicago News.

The Good Fellow Who Became Tightwad.

ONCE upon a time there was a young man who liked to be called a Good Fellow. All he had to do to obtain that title was to spend his money freely, make loans to his impecunious friends and never ask them to pay up. All these things he did gladly, and his popularity grew apace.

But one day he met a girl. After that his view of life underwent a change. He cared less and less for the society of his former friends and began to give serious thought to the subject of matrimony. The more he considered the idea the better he liked it, and in due course of time he plucked up courage to pop the question.

He was agreeably surprised when the girl accepted him and named a not too distant day for the ceremony that should unite their destinies forever and a day. From that time forth he saved every cent he could lay his

hands on toward furnishing a flat and other expenses incidental to married life.

About this time he met one of his former companions, who asked for the loan of \$5 until next Saturday. When the prospective bridegroom refused this modest request and ventured to remind the other that there was still a matter of some \$50 due him on earlier loans his friend became very indignant.

"What's the matter with you lately, Bill?" he asked. "You used to be a good fellow, but now everybody is calling you a tightwad."

"Not everybody," replied Bill. "There's one little girl who calls me sweetheart and dearie and honey-bunch and a host of other names equally euphonious. That being the case, I don't care a hoot what the rest of you call me."

The moral is: Go thou and do likewise.

Diligent.

I HOPE you are making good use of your time at school," said Bobbie's uncle.

"You bet I am," replied the boy. "I won most 50 marbles off of Jimmie Smith at recess today."

Real Money.

YOUR salary," said the manager of the film company to the star he was trying to sign up to a long contract, "will be \$1,000,000 per week."

"That listens good," said the actor, "but how much are you going to pay me?"

No Objection.

THIS war is making everything more expensive," complained father. "I see by the paper that even castor oil is going up."

"That's nothing in my young life," said little Johnny. "The only time it worries me is when it's going down."
